Test Summary Report

Contents

1. *Report Description*

   This document explains the various activities performed as part of the Testing process of 'Amazon' web application using different web browsers.

2. *Application Overview*

   Amazon is an American multinational technology company which focuses on e-commerce, cloud computing, digital streaming, and artificial intelligence. It is the world's most valuable brand. Amazon aims to be the world's most customer-centric company rather than a competitor focused organization. Customer reviews, 1-Click shopping, personalized recommendations, Prime, Fulfillment by Amazon, AWS, Kindle Direct Publishing, Kindle, Fire tablets, Fire TV, Amazon Echo, and Alexa are some of the products and services pioneered by Amazon.
